

Hibernia College Quality Framework

Guidelines for Data Protection and the Handling of Student Data

HIBERNIA
COLLEGE

1 Introduction

1.1 Hibernia College and Student Personal Data

Processing student data is an integral part of the day-to-day operation of Hibernia College. As a Data Controller, the College has an obligation to protect the data privacy, security and integrity of our data subjects, including our students, in line with the principles set out in the [Policy for Personal Data and Records](#).

1.2 Who is are these guidelines for?

These guidelines are to support any staff, faculty or adjunct faculty member in the implementation of data protection principles in their role and in the day-to-day handling of student data.

2 What is Data Protection?

2.1 Data Protection Principles

The following seven principles are outlined in the [Policy for Personal Data and Records](#) but are summarised as follows:

- a. *Lawfulness, fairness, and transparency*
- b. *Purpose Limitation*
- c. *Data Minimisation*
- d. *Accuracy*
- e. *Storage Limitation*
- f. *Integrity and Confidentiality*
- g. *Accountability*

2.2 Definitions

Definitions for each of the following key terms can be found in the Policy for Personal Data and Records, and apply to this policy document also:

- a. *Data Controller*
- b. *Data Processor*
- c. *Data Subject*
- d. *Personal Data*
- e. *Special Category Data*
- f. *Criminal Offence Data*
- g. *Identifiable Natural Person*

2.3 Examples of Students' Personal, Special Category Data and Criminal Offence Data

- a. *Examples of Students' Personal Data Held by Hibernia College includes but is not limited to:*
 - i. Biographical Information such as name, address, date of birth, PPS number, phone number, email address.
 - ii. Data relating to studies such as student number, prior educational data (i.e. grades achieved at leaving cert, grades achieved at third level), grades achieved during study, admissions data, academic appraisal and feedback.
 - iii. Emergency contact/next of kin.
- b. *Examples of Special Category Data*
 - i. Certificates pertaining to a student's mental or physical health provided as evidence for absences, reasonable accommodation, assessment extensions and pause in studies.
- c. *Criminal Offence Data*
 - i. Garda Vetting disclosures and associated information.

3 Accessing Personal Data

The GDPR gives individuals the right of access to their personal data. This includes the right to confirmation that personal data concerning them is being processed and the right to request a copy of any such data. These requests are often referred to as "data subject access requests".

Data subjects have the right to access data pertaining to them in any format including documents where they are identified directly or indirectly by any identifier such as a PPS number or student number or any attributes distinguishing a person.

The College's process for dealing with a data subject access request is set out in the Procedure for Managing a Data Subject Access Request.

4 How can you ensure you are handling student data appropriately?

4.1 Taking Care in Identifying Student Personal Details

- a. *Verifying Student Identity*
 - i. Hibernia College staff, faculty and adjunct faculty should take care to ensure they are responding to a student's official College email address, or students' email as registered with the College, in all written communications.
 - ii. When communicating with students on the phone, staff, faculty and adjunct faculty should ask two verification questions to verify the student's identity before releasing any personal information. The first verification question should always be a request for Student Number. Additional questions can include verification of registered address, telephone number and date of birth.
 - iii. In instances where special category data is being requested, it may be appropriate to request the student produce a copy of photographic identification in consultation with the Records and Data Office e.g. students requesting records of data they submitted as evidence in a formal process such as requests for extensions and applications related to reasonable accommodations.

b. *Cause for Concern for Student Identity*

- i. Whenever there is uncertainty about a person's identity, the Records and Data Manager must be contacted without delay.
- ii. The Records and Data Manager will conduct an investigation and will notify all departments to hold all correspondence relating to the individual until their identity can be confirmed.
- iii. In cases where there is any doubt as to whether a personal data security breach has occurred, the Records and Data Manager should be consulted immediately.

c. *Change of Personal Details*

- i. Students can submit an [Application for Change of Personal Details](#) to the Records and Data Office to update or amend their personal details.
- ii. Any requests received by other College staff, faculty and adjunct faculty should be forwarded to the Records and Data Office for processing.

4.2 Taking Care in Student Data Handling

a. *Drafting documentation*

- i. Hibernia College staff, faculty and adjunct faculty should ensure that all documentation, records or correspondence which contain student data are drafted in consideration of the students' right of access.

b. *Unauthorised Use of Data*

- i. Accessing student data for usage outside of your contract with Hibernia College is strictly prohibited. Such prohibited usage includes but is not limited to personal interests or commercial interests.

c. *Confidentiality*

- i. Hibernia College staff, faculty and adjunct faculty should never discuss any aspect of a student's grade or academic record with another person, outside of the College. This includes the parent, spouse or friend of a student. Our contract is with the student alone.
- ii. If a student provides any staff member with special category data, the staff member should ensure that the special category data is passed to the appropriate Hibernia College staff or faculty member. Once the data has been passed to the appropriate person, the staff member should permanently delete the data from their records.

d. *Data Handling in Assessment*

- i. When marking several assessments in a row, Hibernia College staff, faculty and adjunct faculty should ensure the file name matches the name and student number on the account to which the file is uploaded.
- ii. Ensure that feedback files are not mixed up with personal files on your device.
- iii. Do not save any assessment or feedback material to unsecure environments. This includes, desktops, unlicensed cloud services and USBs.
- iv. Once you have concluded marking an assessment and you have received confirmation that the relevant data has been received by the College, delete all information pertaining to the assessment from your device.
- v. Avoid paper records unless absolutely necessary.

4.3 Practicing good data security

a. *Keeping your access to Hibernia College Systems secure*

- i. Ensure that your password to Hibernia College systems including, but not limited to, Outlook, Quercus, MyHelms, Inplace is strong and secure. Use a mixture of lowercase, uppercase, letters

numbers and special characters. Don't use a password that is the same as a password you use in other contexts. Ensure that your password is regularly changed.

- ii. Never allow another person to access the college information systems using your account.
- iii. If you suspect your account has been compromised change your password immediately and contact Hibernia College IT Services.
- iv. If you are accessing Hibernia systems from a shared device do not save your passwords.

b. *Device Safety*

- i. Never leave your device unattended without ensuring it is password protected. Never leave your device unattended in an unsecure location for any reason.
- ii. Ensure your device is encrypted or password protected.
- iii. To safeguard against cyber-attacks viruses and malwares, ensure your device is equipped with an adequate firewall and anti-virus software.
- iv. If your device is lost or stolen contact the Records and Data Manager and the IT department immediately.

c. *E-mail Correspondence with Students*

- i. When sending group emails use the MyHELMs system wherever possible.
- ii. If, for a legitimate reason, you are required to use email for group correspondence, always send group emails via the 'bcc' field not the 'to' field. If students can view the contact details of their classmates, this is a data breach.
- iii. Be very mindful when forwarding email threads from students as the content may contain protected or sensitive information that the subsequent recipient does not need to view or is not entitled to view.

4.4 Data Breaches

a. *Discovering a suspected data breach*

- i. If you discover, or even suspect a data breach, consult the Procedure for Managing Personal Data Security Breaches and contact the Records and Data Manager immediately at dpo@hiberniacollege.net

b. *Breach Notifications*

- i. Where the College has determined that the data breach is likely to result in a risk to the rights and freedoms of data subjects, the data breach must be reported to the Data Protection Commission within 72 hours of first having become aware of the breach.
- ii. Data processors are also required to notify their customers, the controllers, "without undue delay" after first becoming aware of a data breach.

c. *Examples of data breaches*

Examples of data breaches include:

- i. Disclosing information about a student to another student.
- ii. Disclosing information about a student to a person not contracted by Hibernia College to serve students.
- iii. Publishing of student information on websites and social media.
- iv. Inadvertently sending emails via reply all to those who did not need to view that information.
- v. Data is stolen by physical or electronic means.

4.5 Questions or Concerns

If you have any questions or concerns, feel free to contact the Records and Data Manager at dpo@hiberniacollege.net.
